

2021-2022

Energy Management

Program Overview

Energy Management is an interdisciplinary program that provides students with the skills and knowledge necessary for the growing workforce needs in the energy sector. You will learn to apply emerging renewable energy sources, understand energy efficiency, and navigate energy policy so that you can support and direct the energy needs of organizations and communities.

Career Potential

The Energy Management diploma program prepares graduates for employment at the technology level with excellent potential for upward mobility as job experience grows.
