2022-2023

Advanced Education in Orthopaedics for LPNs

Program Overview

This post-diploma, advanced certificate program prepares licensed practical nurses with the knowledge and skills for a specialized career in orthopaedics. The program consists of two theory courses, one lab course, and a clinical practice through self-paced study.

Learners will further their understanding of anatomy and physiology in relation to orthopaedics and orthopaedic radiology, assessment, and trauma. The curriculum includes specialized orthopaedic procedures, including casting.

Career Potential

Upon successful completion of this program, you will be prepared to work in emergency departments, cast rooms, and orthopaedic patient care areas.

Admission Requirements

- active registration with a college for licensed practical nurses (LPNs)
- applicants will require a minimum of 3600 hours (approximately two years) current acute care experience as an LPN
- informal interview with the program instructor

Note: The admission requirements listed above may be satisfied by submitting a letter from your employer stating that the requirements have been met and are up to date.
