Pensionable Service
The base unit for calculating pension is 1885 hours for employees in full time positions not receiving a pay differential and 2080 hours for employees working full time and receiving a pay differential. Pensionable service for part-time employees will be pro-rated in accordance with their working hours.
Calculating Pensionable Service Examples:

Full Time: 7.25 hours x 260 days = 1885 hours or 1.000 pensionable service year

Full Time Receiving a Pay Differential: 8.00 hours x 260 days = 2080 hours or 1.000 pensionable service year

Part Time (.5 FTE): 3.63 hours x 260 days = 943.8 hours or 0.5000 pensionable service year

Pensionable Earnings
Eligible pensionable earnings are based on:
• gross base pay for the performance of regular duties,
• acting pay,
• chair stipend,
• lump sum payments in lieu of salary adjustments for the performance of regular duties,
• market supplement pay,
• pay differential earnings for 40 hour work week, and
