Overview:

This procedure supports the implementation of the Universal Design (UD) Policy by providing guidance for the planning and design of curriculum, faculty and staff supports, and online course delivery at NorQuest College (college).

Authority to establish this procedure is derived from the NorQuest College Board of Governor's Policy No. 5, which delegates authority to the President and CEO to establish policies and procedures for the college’s management and operation.

Procedures:

All planning for curriculum, faculty and staff supports, and online learning will consider the principles of Universal Instructional Design (UID). When new curriculum templates, faculty and staff training sessions, and educational technologies are proposed, consultation and early discussion will highlight UID principles to ensure that all new materials and training will focus on accessibility. Embedding UID principles into course curriculum development and implementation will assist instructors in creating a more accessible learning experience. Current educational technologies will inform the college’s new Online Accessibility Standards, which will be updated as technologies evolve. The planning and design of curriculum, faculty and staff supports, and online course delivery will be in accordance with the following:

- Universal Instructional Design principles
- Universal Design for Learning principles
- College’s Curriculum Quality Standards
- Functional programming and end-user requirements
- College’s new Online Accessibility Standards

Definitions:

Diverse learners\(^1\): are individuals who may experience learning barriers as a result of physical, emotional, cognitive, linguistic, socio-economic, or cultural conditions, or because of gender, age, religion, or geographic location.

Universal Instructional Design Principles\(^2\): The Seven Principles of UID describe how instructional materials and activities should fall within these guidelines:

1. Be accessible and fair
2. Be flexible

\(^1\) Adapted from the University of Oregon located at http://gladstone.uoregon.edu/~asuomca/diversityinit/definition.html

\(^2\) Adapted from UID University of Guelph located at http://www.tss.uoguelph.ca/uid/
3. Be straightforward and consistent
4. Be explicit
5. Be supportive
6. Minimize unnecessary physical effort
7. Accommodate students and multiple teaching methods

**Universal Design for Learning Principles**

- Multiple means of representation
- Multiple means of action and expression
- Multiple means of engagement

- Universal Design Policy
