

**Position:**

Field and Infusion Nurse (LPN)

Part time/Casual

Provides specialized infusion/injection therapies and nursing services to oncology, auto-immune and rare disease patients in outpatient clinics or homecare settings. Effective coordination and communications play an essential part in servicing patients, care givers and our clients. This position offers patients and healthcare providers with continuous education and support with regard to the diseases and therapies they are managing.

**Primary Duties & Responsibilities:**

- Administer medications (IV, IM and SC) in the patient's home or specialty clinics setting
- Monitor post-injection/infusion treatments as well as chart and report on all activities as directed by program protocols
- Provide patient education based on program protocols, individually or in groups
- Regular, predictable availability to meet appointment scheduling needs in an efficient and cost effective manner to provide patients with quick access to necessary therapies
- Coordinate daily with patients, case managers, physicians, scheduling and other departments to meet established timelines for scheduling appointments, treatments, and communication of information
- Participate regularly in telephone consultations and/or web based meetings/training sessions with the District Manager to share information, and uphold professional practice standards
- Consult with physicians, pharmaceutical and biotechnology clients regarding education and implementation of product specific programs
- Adhere to professional nursing standards as prescribed by the professional associations and the company
- Work collaboratively within multidisciplinary health care team providing oversight and delegation of applicable tasks to RPN/LPN as authorized by provincial college of nurses
- Perform related duties and tasks as required.

**Educational Requirements:**

- Qualified registered nurse or LPN (valid provincial license from the College of Nurses)
- Healthcare provider CPR certificate required
- **Practical Nursing Program** students are eligible to apply
